

IT ≠ Information Technology

The Acronym is Good but the Meaning is Old

Name that Acronym

MD

AI

NA

BS

IT

NM

RT

NP

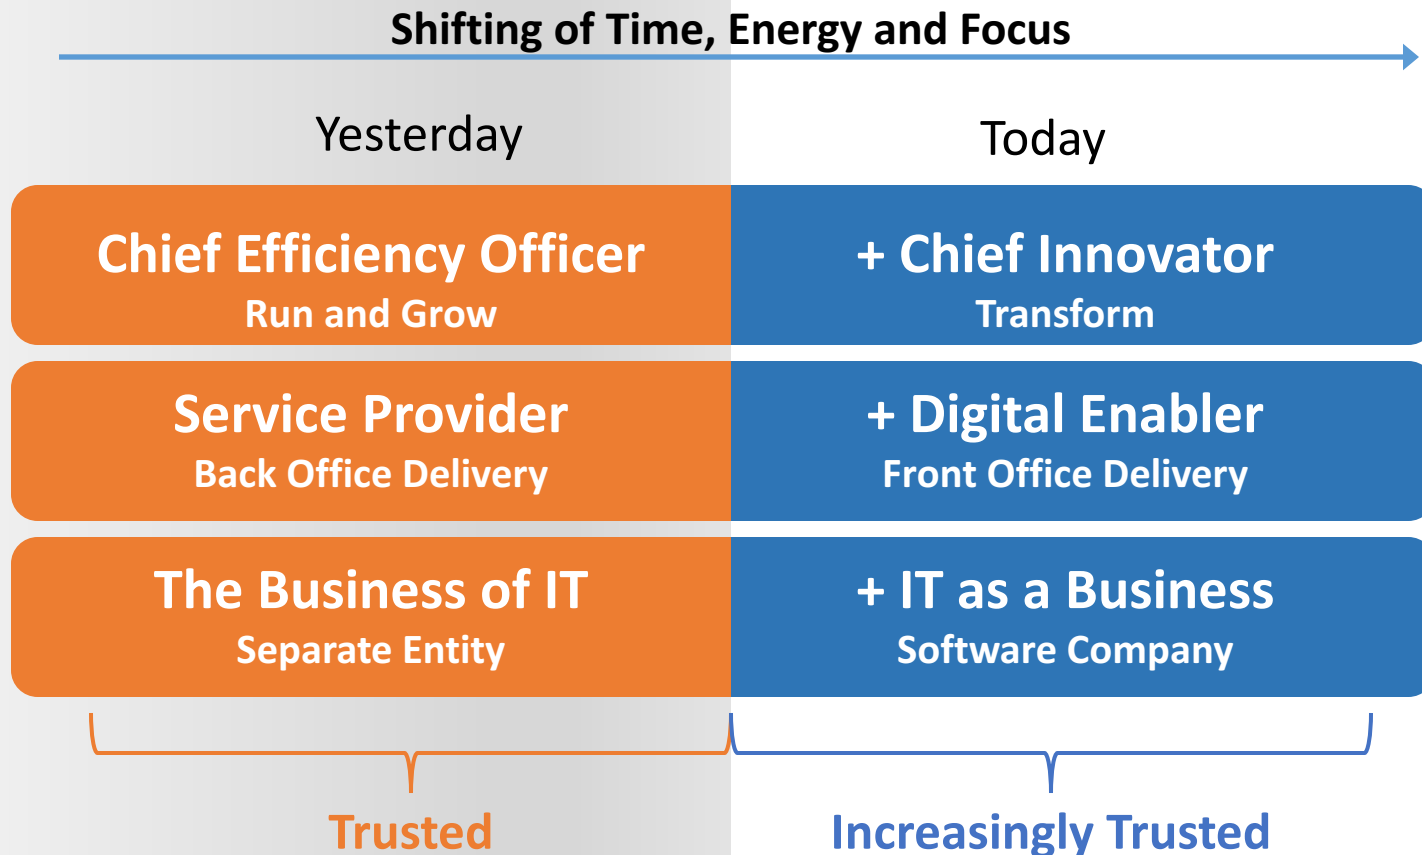

TY

OT

HR

Brilliant Coder But Do You Trust Him to Set Your Company Strategy?

Transaction-centric

Back office operations designed to facilitate the flow of artifacts

Customer-centric

The focus changed to what is actually being exchanged....and that commodity is information

Experience-centric

Using information to transform traditional industrial assets into seamless smart connected experiences

With New Responsibilities Come New Risks

- **Continue to grow Gulf Coast Cybersecurity hub**
- **Stay smart about technology and external market forces**
- **Understand products, services and technology are inextricably linked**
