Pensacola Hosts Annual ITEN WIRED Summit
ITEN WIRED is the Gulf Coast's Premier Conference for Executives, Entrepreneurs, Professionals, and Educators

Pensacola, FL: IT Gulf Coast and Florida West Economic Development Alliance is proud to host the 2018 ITEN WIRED Summit October 1-2. The annual technology summit provides networking and learning opportunities for executives, entrepreneurs, technology professionals and academia to foster local economic development efforts surrounding innovation, technology, and entrepreneurship.

This event is one you don't want to miss if you're in the technology industry as speakers and attendees are coming in from Virginia, Maryland, North Carolina, Georgia, and more. The action-packed weekend starts Friday, September 28th and includes a career opportunities expo, a golf outing with professionals in the industry, a cyber competition, a CIO roundtable, welcome reception, industry day, blockchain and cyber keynotes, and over twenty breakout sessions.

This year the keynote speakers are:
- Dr. Stephen Dunnivant, Dean of the Advanced Technology Center, Tallahassee Community College
- Arianna Simpson, Managing Director/Founder, Autonomous Partners
- Capt. Nicholas Andrews, United States Navy
- Joseph Blankenship, Principal Analyst, Forrester
- Bill Hills, Executive Vice President and Chief Information Officer, Navy Federal Credit Union
- Anthony Lawrence, Owner and CEO, VOR Technology

ITEN WIRED's breakouts are modern and informative sessions that include topics such as healthcare technology, information security, cyber defense, digital marketing, machine learning, human resources, IT and more. This year, for the first time, we will be presenting on video as it is quickly becoming more in demand for increasing social media leads, as well as brand awareness that converts to loyal customers. The team at Vivid Bridge Studios will be provide breakout sessions on "Business Use Case for Video" and "Innovative, Creative Video Production." If you're in the startup world, the Managing Director and Founder of Autonomous Partners will have a workshop on "Investing in Tech Startups." ITEN WIRED is all about growing the information technology industry and revolutionizing the way tech companies increase business.

Whether you are an executive, entrepreneur, IT professional, digital marketer, student, or just looking for insights into the current issues that concern information technology, the ITEN WIRED Summit is a valuable resource. There will be many networking opportunities with peers and area leaders. No matter your industry or location, you'll be sure to find interesting and engaging people and topics at this year's summit! Last year's Summit sold out, so register early.
